

Quality Enhancement Project

Workshops for Private Higher Education Institutions 4-5 August and 17-18 September 2015

The Quality Enhancement Project (QEP) is a national project of the CHE designed to encourage all higher education institutions to improve student success, both individually and collectively. Phase 1, which takes place in 2014 and 2015, has four focus areas:

1. Enhancing academics as teachers
2. Enhancing student support and development
3. Enhancing the learning environment
4. Enhancing course and programme enrolment management

Private higher education providers are invited to send TWO participants to a 2-day workshop in either Johannesburg or Cape Town. The workshop will deal with Focus Areas 2 and 3. It will consist of presentations and discussion groups. The aim is to share ideas about the challenges institutions face related to these focus areas, together with examples of good practice and strategies for addressing the challenges.

The Johannesburg workshop will be hosted by St. Augustine College and the Cape Town workshop will be hosted by Vega School of Brand Leadership. The fee covers meals and refreshments for the two workshop days. It must be paid in advance directly to the institution. To participate:

1. Complete the online registration form
2. Pay for your selected workshop, **ref QEP**
3. Send proof of payment to the host institution with your name and your institution's name

REGISTRATION CLOSES 30 JULY 2015

OPTION 1- JOHANNESBURG	OPTION 2- CAPE TOWN
